

This page provides an abstract, justification, and target dates for a potential rule that the U.S. Nuclear Regulatory Commission (NRC) has prioritized in its Common Prioritization of Rulemaking listing.

Please visit the [Rulemaking Priorities](#) page on the NRC's public Web site for additional information about this page and to view the entire Common Prioritization of Rulemaking listing.

Dodd-Frank Act of 2010 Rulemaking (Rev. 2)				
Abstract				
This rule would amend the Nuclear Regulatory Commission regulations in 10 CFR Parts 30, 40, 50, and 70 to remove any use or reference to bond rating as mandated by the Dodd-Frank Act of 2010, and to develop alternate criteria, if any, in place of the bond rating to ensure financial tests are sufficient in evaluating guarantee as an acceptable financial instrument for decommissioning financial assurance or to evaluate if guarantee will remain as a viable financial instrument absent the bond rating criteria. Staff is currently re-evaluating the need for this rulemaking.				
Justification				
The rule scores 6 points (0, 0, 6, 0) because of the following reasons: A) Does not contribute toward any goal; B) Does not contribute toward any strategy; C) Moderate contributor toward one or more considerations or Congress or the Commission has provided specific direction with no priority/schedule on the rulemaking. Required by the Dodd-Frank Act; and D) No contribution toward any consideration.
