Subject: Requesting Source Increase (MATERIAL LICENSE NO: 13-32182-01)

Dear Mr. Null,

We are respectfully requesting a source increase to our material license. Below is a summary of our current limits of our license and requested limits.

Current Limits:

68 mCi of Cesium 137: (Troxler Drawing number A-102112 and Humboldt Drawing number 2200064-01)
320 mCi of Americium 241: (Troxler Drawing number A-102451 and Humboldt Drawing number 2200067-01)
4.5 mCi of Radium-226: (Radium Chemical Company Model RAN-W25)

Requesting Total limits increased to:

92 mCi of Cesium 137
440 mCi of Americium 241

If you have any questions please feel free to contact our office.

Sincerely,
GME Testing

Good Morning Kevin,

Attached is the requested source increase letter. Could you refresh my memory on how long it takes to process the amendment to our license. This would be helpful in obtaining the additional gauges, so I can tell the company we are

going to purchase them. They are wanting to remove these gauges from their inventory before their license expires and I wanted to get them before they sell them to another company.

Hi Connie,

No special paperwork needed. You can submit your request on standard letterhead.

Afternoon Kevin,

We were going to be adding a couple more troxler 3430 gauges to our inventory and are requesting a Source Increase. Could you forward me the appropriate paperwork so I can submit our request. Our current license limits are 68mCi of Cesium 137 and 320 mCi of Americium 241. We are requesting our limits be 92 mCi of Cesium 137 and 440 mCi of Americium 241. Thanks!
