SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2014-046)

Dear Mr. McCann:

This refers to an investigation conducted by the U.S. Nuclear Regulatory Commission's (NRC) Office of Investigations regarding activities at the River Bend Station. The Office of Investigations initiated the investigation to determine whether a former nuclear security officer at Entergy Operations, Inc.'s River Bend Station, St. Francisville, Louisiana, willfully falsified training records by taking tests for other River Bend Station nuclear security officers, and if River Bend Station security supervisors and managers willfully provided answers to test questions and requested and allowed the former nuclear security officer to take tests for other nuclear security officers.

Based on the evidence developed during the investigation, the allegation that a former River Bend Station nuclear security officer willfully falsified training records by taking tests for other River Bend Station nuclear security officers was not substantiated.

Based on the evidence developed during this investigation, the allegation that River Bend Station security supervisors and managers willfully provided answers to test questions and requested and allowed the former nuclear security officer to take tests for other nuclear security officers was not substantiated. The NRC plans no further action related to the willful aspects of this allegation and considers this investigation closed.

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, Requests for Records. Information is accessible from the NRC's website at <http://www.nrc.gov/reading-rm/foia/foia-request.html#how>.
