

This page provides an abstract, justification, and target dates for a potential rule that the U.S. Nuclear Regulatory Commission (NRC) has prioritized in its Common Prioritization of Rulemaking listing.

Please visit the [Rulemaking Priorities](#) page on the NRC's public Web site for additional information about this page and to view the entire Common Prioritization of Rulemaking listing.

<b>Part 71, Compatibility with International Atomic Energy Agency (IAEA) Transportation Standards, SSR-6, 2012 Edition (Rev. 2)</b>				
<b>Abstract</b>				
<p>This rule would amend the Nuclear Regulatory Commission's regulations in 10 CFR Part 71 to harmonize domestic regulations for Type B and fissile radioactive material transportation packaging with the 2012 Edition of the IAEA Safety Standards Regulations for the Safe Transport of Radioactive Material (SSR-6). The Nuclear Regulatory Commission has periodically revised its transportation regulations to make them compatible with the IAEA, reflecting knowledge gained in scientific and technical advances and accumulated experience. Compatibility between domestic and international requirements ensures a consistent safety basis for transport. This rulemaking will be coordinated with the U.S. Department of Transportation (DOT).</p>				
<b>Justification</b>				
<p>This rule scores 28 points (10, 10, 5, 3) because of the following reasons: A) Moderate contributor toward one goal and implements one goal strategy (safety strategy 2); B) Moderate contributor toward multiple strategies (regulatory effectiveness strategies 1 and 2; openness strategy 3); C) Moderate contributor toward one or more considerations or the Commission has provided specific direction and priority/schedule on the rulemaking. No specific Commission direction but Nuclear Regulatory Commission periodically conducts rule to be compatible with IAEA. Would be coordinated with DOT so that final rule is published at same time as DOT final rule; and D) Moderate contributor toward one or more considerations. There is some interest in this rule from industry and stakeholders.</p>
