

January 29, 2016

Valmet, Inc.  
ATTN: Jack Ramsey  
Sr. Radiation Safety Officer  
2425 Commerce Avenue, Suite 100  
Duluth, GA 30096

SUBJECT: AMENDED SEALED SOURCE AND DEVICE REGISTRATION CERTIFICATE  
NOS. NR-0596-D-110-G, NR-0596-D-113-G, and NR-0596-D-114-G

Dear Mr. Ramsey:

The U.S. Nuclear Regulatory Commission noticed typographical errors in the reference section in the three Valmet device registration certificates NR-0596-D-110-G, NR-0596-D-113-G, and NR-0596-D-114-G. The Agencywide Documents Access and Management System (ADAMS) ML numbers for the references dated September 3, 2015, and September 23, 2015, were incorrect. The correct ADAMS numbers are now referenced. Copies of the corrected registration certificates are enclosed.

Please be advised that you must manufacture and distribute any registered product in accordance with the statements and representations contained in your application, with enclosures thereto, and the information set out in your registration certificate. As a general rule, you must request and obtain an amendment to the certificate before you make changes or modifications to the information submitted to obtain the certificate.

Please read over the enclosed registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing should you decide to no longer manufacture, distribute, or offer service support for the product.

J. Ramsey
