

UNITED STATES  
**NUCLEAR REGULATORY COMMISSION**  
WASHINGTON, D.C. 20555-0001

February 4, 2016

Ms. Julia A. Schmitt, Manager  
Office of Radiological Health  
Department of Health and Human Services  
301 Centennial Mall South  
P.O. Box 95026  
Lincoln, NE 68509-5026

Dear Ms. Schmitt:

We have reviewed the Nebraska proposed legally binding requirements to address implementation of 10 CFR Part 37, Physical Protection of Byproduct Material, received by our office on January 15, 2016. These regulations were reviewed by comparison to the equivalent U.S. Nuclear Regulatory Commission (NRC) rules and the requirements of the amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with you on February 3, 2016.

As a result of our review, we have no comments related to compatibility, and one comment not related to compatibility but should be addressed, that has been identified in the enclosure. We have determined that Nebraska's legally binding requirements meet the compatibility and health and safety categories established in the Office of Nuclear Material Safety and Safeguards (NMSS) Procedure SA-200, "Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements."

The SRS Data Sheet summarizes our knowledge of the status of other Nebraska regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the NMSS State Communication Portal: <https://scp.nrc.gov/rulemaking.html>.

J. Schmitt
