Subject: Request for Revision to 2015 Report of Exempt Transfers; PerkinElmer; License No. 20-00320-14E
Attachments: RIS 2014-10 Exempt Distribution.pdf

Dear Mr. Hoey,

I've reviewed your exempt transfers report dated January 15, 2016.

You have reported the form of radionuclides as "Liquid/Salt." Please revise and resubmit your report to indicate the quantity of radionuclides distributed according to the form distributed, i.e., you should report the the quantity of radionuclide distributed in a liquid form for each radionuclide and the quantity distributed as a solid form for each radionuclide. This request is based on the regulations in 10 CFR 32.20(c), which require you to report, for each radionuclide in each physical form, the total quantity of each radionuclide and the physical form, transferred under the specific license. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
Eric
