**MOTION OF PACIFIC GAS AND ELECTRIC COMPANY
FOR LEAVE TO INTERVENE**

Pacific Gas and Electric Company (“PG&E”) hereby moves this court for leave to intervene on its own motion and as of right in the above-captioned case pursuant to Rule 15(d) of the Federal Rules of Appellate Procedure, Circuit Rule 15(b), and 28 U.S.C. § 2348. PG&E seeks intervention in support of the U.S. Nuclear Regulatory Commission (“NRC” or “Commission”) and offers the following grounds for the requested action:

1. Diablo Canyon Power Plant (“Diablo Canyon”) is a two-unit nuclear plant licensed and regulated by the NRC. PG&E is the owner and operator of Diablo Canyon and holds the NRC operating licenses for the plant.
2. In November 2009, PG&E filed an application with the NRC to renew the operating licenses for the Diablo Canyon units for an additional 20 years. The application initiated an NRC administrative proceeding, including an opportunity for hearing.
3. In October 2014, Petitioner Friends of the Earth (“FOE”) filed with the NRC an untimely Request for Hearing and Petition to Intervene in connection with the license renewal application. FOE sought to raise certain contentions related to seismic hazards at Diablo Canyon. Recognizing that such issues are not normally within the scope of an NRC license renewal review, FOE also filed a Petition for Waiver of the license renewal regulations to allow consideration of its contentions within the scope of the license renewal review and hearing.
4. PG&E, as the Diablo Canyon licensee, responded to FOE’s Request for Hearing and Petition for Waiver and participated as a party in the administrative proceedings at the NRC. PG&E opposed the Request for Hearing and Petition for Waiver.

5. The NRC's Atomic Safety and Licensing Board denied the Request for Hearing and Petition for Waiver. FOE appealed the decision to the Commission. PG&E opposed the appeal.
6. The Commission issued a Memorandum and Order, CLI-15-21, dated November 9, 2015. The Commission affirmed the decision of the NRC's Atomic Safety and Licensing Board. The Commission's Memorandum and Order ended FOE's participation in the hearing process on the Diablo Canyon license renewal application.
7. In its Petition for Review, FOE seeks review by this Court of the Commission's Memorandum and Order, CLI-15-21. FOE requests that this Court vacate the Memorandum and Order and order the NRC to grant its petitions at the agency.
8. PG&E's operations are directly implicated by FOE's Request for Hearing and Petition for Waiver at the NRC and by the Petition for Review. PG&E would be the party directly affected should the Court grant the Petition for Review. Accordingly, PG&E has a direct and substantial interest in the case. Although NRC is a Respondent with respect to the Petition for Review, PG&E has a separate interest apart from the regulatory interests of the NRC.
9. Counsel for the NRC has indicated that the NRC does not object to this motion. Counsel for FOE also has indicated that FOE does not object to this motion.

Wherefore, PG&E requests that it be granted leave to intervene as a party respondent in the captioned proceeding.

Respectfully submitted,
