RE: Follow-up on the #21-17974-01 termination

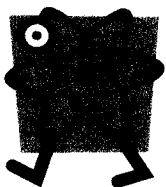

Thank you for your email on the Tri-County license. Sorry, I got home so late last night

1. I have attached the inventories and leaks tests for before and after move are now attached, I must have either over looked that, or the fax did not go thru properly.
2. The license #21-26253-01 Radiological Physics Service.

If there are any further questions please contact our physicist, Laura T. Smith, MS, DABR at (586) 808-3058.

Sincerely,

Laura T. Smith, MS, DABR

I am sorry I did not send this information until today, I got home so late, and then was exhausted, and even though I typed I yesterday, I did not want to send it, because I thought it should be reviewed first.  
Thank you for your patience.

Mr. Parker,  
I will do that tonight - late (as in after 9pm). I suppose faxing in leaves lots of missed pages, or perhaps I forgot to include them.  
Either way, I have all that information you requested, and will send it out via email scanned in tonight.  
Thanks,

Laura Smith

Hey  
Laura,

I have received the request to terminate Lic. No. 21-17974-01, Tri-County Radiologists and it looks ok; however, Item 4 of letter dated 10/16/15 indicates that leak tests and inventories of sealed sources transferred are attached, but they are not.

Could you please send me those  
(or the last set after transfer will suffice)?

Also, could you provide the  
license number of where the sources were transferred to, just for the record?

The letter indicates they were transferred to Radiological Physics Service, but no license number is given.

It is fine  
to send by e-mail, but  
please include a short  
signed cover letter with it too.

If you have  
any questions, please let me know.

Thanks.

Bryan
