Re: Oconee Unit 1
Docket No. 50-269

Dear Mr. Goller:

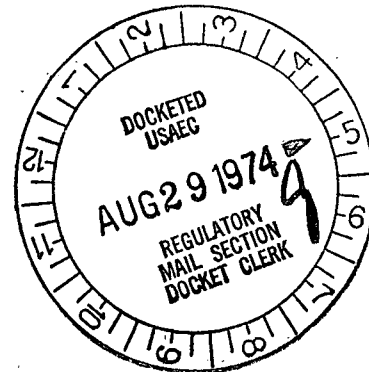

My letter of August 22, 1974 forwarded information supplied by the Babcock & Wilcox Company concerning the proprietary nature of the program for the insertion of zirconium oxide spacers in an Oconee 1, Batch 4 fuel assembly. Subsequent to that letter, B&W has informed Duke that the proprietary classification of this information was in error. Please find attached an affidavit of James F. Mallay, Manager of Licensing, Nuclear Power Generation Division of Babcock & Wilcox, which correctly identifies the information B&W considers proprietary and should be withheld from public disclosure. Please disregard my letter of August 22, 1974 of the same subject.

Very truly yours,

A. C. Thies
