Mr. Benard C. Rusche, Director  
Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

RE: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Mr. Rusche:

Facility Operating Licenses DPR-38, -47, and -55 authorize the operation of the Oconee Nuclear Station, Units 1, 2, and 3 respectively. In each of these licenses, Conditions 2B, 2C, and 2D state:

- B. Pursuant to the Act and 10 CFR Parts 30, 40 and 70, to receive, possess, and use at any time any byproduct, source and special nuclear material as reactor fuel, sealed neutron sources for reactor startup, sealed sources for reactor instrumentation and radiation monitoring equipment calibration, and as fission detectors in amounts as required for reactor operation;
- C. Pursuant to the Act and 10 CFR Part 30 to receive, possess and use at any time 100 millicuries each of any byproduct material without restriction to chemical or physical form, for sample analysis or instrument calibration;
- D. Pursuant to the Act and 10 CFR Parts 40 and 70 to receive, possess and use at any time 100 milligrams each of any source or special nuclear material without restriction to chemical or physical form, for sample analysis or instrument calibration; and

These provisions of the operating licenses necessitate the acquisition of separate licenses for any byproduct, source and special nuclear material necessary for the operation of the station but not falling within the specified amounts or designated uses of the existing licenses. It is considered that the equipment and facilities at Oconee Nuclear Station are adequate; that personnel are qualified by training and experience; and that administrative procedures, record keeping, material control and accounting control have been established, to use any byproduct, source and special nuclear material necessary for the operation of the station in such a manner as to protect the health and minimize danger to life and property.

10581

Mr. Benard C. Rusc

Page 2

October 13, 1976

It is requested, pursuant to the provisions of 10CFR50 §50.90 that an amendment to the Oconee Nuclear Station Facility Operating Licenses be approved permitting the receipt, acquisition, possession, use, transfer, and import of any byproduct, source and special nuclear material, without restriction to chemical or physical form, in amounts necessary for the operation and maintenance of the facility. The amendment will replace Conditions 2B, 2C, and 2D with the proposed Condition 2B and change Condition 2E to Condition 2C as indicated on the attached replacement page.

Very truly yours,

A handwritten signature in cursive script, appearing to read "William O. Parker, Jr.", with a long horizontal flourish extending to the right.

William O. Parker, Jr.

Attachment

WILLIAM O. PARKER, JR., being duly sworn, states that he is Vice President of Duke Power Company; that he is authorized on the part of said Company to sign and file with the Nuclear Regulatory Commission this request for amendment of the Oconee Nuclear Station Facility Operating Licenses DPR-38, DPR-47 and DPR-55; and that all statements and matters set forth therein are true and correct to the best of his knowledge.

  
\_\_\_\_\_  
William O. Parker, Jr., Vice President

ATTEST:

  
\_\_\_\_\_  
John C. Goodman, Jr.  
Assistant Secretary  
(Seal)

Subscribed and sworn to before me this 13th day of October, 1976.

  
\_\_\_\_\_  
Edna B. Limer  
Notary Public  
(Notarial Seal)

My Commission Expires:

  
\_\_\_\_\_  
October 31, 1977

- A. Pursuant to Section 104b of the Act and 10 CFR Part 50, "Licensing of Production and Utilization Facilities", to possess, use, and operate the facility at the designated location on the Oconee Nuclear Station site in accordance with the procedures and limitations set forth in this license;
  - B. Pursuant to the Act and 10 CFR Parts 30, 40, and 70, to receive, acquire, own, possess, use, transfer, and import at any time any byproduct, source and special nuclear material without restriction to chemical or physical form, in amounts as required to operate and maintain the facility.
  - C. Pursuant to the Act and 10 CFR Parts 30 and 70, to possess, but not separate, such byproduct and special nuclear materials as may be produced by the operation of the Oconee Nuclear Station, Units 1,2,3.
3. This license shall be deemed to contain and is subject to the conditions specified in the following Commission regulations in 10 CFR Chapter I: Part 20, Section 30.34 of Part 30, Section 40.41, of Part 40, Sections 50.54 and 50.59 of Part 50, and Section 70.32 of Part 70; is subject to all applicable provisions of the Act and to the rules, regulations, and orders of the Commission now or hereafter in effect; and is subject to the additional conditions specified or incorporated below:
- A. Maximum Power Level

The licensee is authorized to operate the facility at steady state reactor core power levels not in excess of 2568 megawatts thermal.
  - B. Technical Specifications

The Technical Specifications contained in Appendices A and B attached hereto are hereby incorporated in this license. The licensee shall operate the facility in accordance with the Technical Specifications.
  - C. This license is subject to the following additional conditions for the protection of the environment:
