U. S. Atomic Energy Commission  
Washington, D. C. 20545

Re: Oconee Nuclear Station  
Unit 1  
Docket No. 50-269

Dear Mr. Giambusso:

On November 16, 1973, Duke Power Company submitted the Startup Report for Oconee Nuclear Station, Unit 1. The report addressed unit startup and power escalation testing through 1200 hours, October 4, 1973. At that time, all or part of several power escalation tests remained to be completed. Submitted herewith is Supplement 1 to the Startup Report, which addresses those tests completed after the above date and prior to 2400 hours, February 28, 1974. Following completion of further testing, additional supplementary information will be compiled and submitted concerning the results of that testing.

Three copies of the supplement are attached. Thirty-seven copies of the supplement are being transmitted under separate cover.

Very truly yours,

A. C. Thies
