## AFFIDAVIT

STATE OF NORTH CAROLINA  
COUNTY OF MECKLENBURG

BEFORE ME, this day personally appeared W. S. LEE, Vice President of Duke Power Company, who, first duly sworn, deposes and says:

THAT on or about 10:00 A.M. of May 29, 1967, he did deposit in the U.S. mail a document entitled "Amendment No. 4 to Application for Licenses" pertaining to the Duke Power Company Oconee Nuclear Station, Unit Nos. 1, 2 and 3; that this document was properly stamped and addressed to the Honorable Reese A. Hubbard, County Supervisor of Oconee County, South Carolina; and further that the following documents were appended to said "Amendment No. 4 to Application for Licenses" and made a part thereof:

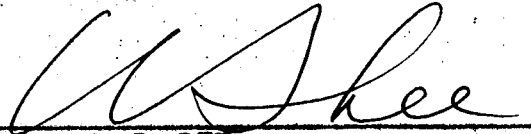

A. Errata Sheets indicating various changes and corrections to portions of the Preliminary Safety Analysis Report and the Application.

B. Substitution and supplementary pages as indicated for the Preliminary Safety Analysis Report to cover various minor changes and corrections and also the following:

1. Revised material for Section 8 and Answer 4.1 to show the addition of a back-up source of electrical power and to reflect the effect of Unit 3 upon electrical systems;
2. Data showing effect of a reduction in reactor building volume and a corresponding increase in design pressure, without any reduction in the percentage margin between peak pressure under accident conditions and design pressure;
3. A parallel set of meteorological models that substantiates the previously submitted accident analyses;

4. Two drawings for insertion in Supplement 3 to show the layout of the Unit 3 Auxiliary Building.

C. Additional information submitted in response to questions contained in letter of Dr. Peter A. Morris, Director, Division of Reactor Licensing, to Applicant dated May 11, 1967. For convenience, this information is submitted in the form of a supplement to the Preliminary Safety Analysis Report and is labeled "Supplement 4" thereto.

W. S. LEE

SWORN to and subscribed to before me this 29th day of May, 1967.
