Re: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Mr. Moore:

Your letter of March 21, 1974 stated that the high energy line break modifications to Oconee Unit 2 should be completed prior to startup following the shutdown for pump and internals inspection. Please be advised that the modifications required for Oconee Unit 2, described in the April 25, 1973 report and its June 22, 1973 supplement, have been completed.

Very truly yours,

A. C. Thies
