Docket Nos. 50-269, -270, -287

Dear Sir:

Your letter of October 4, 1977 requested information necessary for a reassessment of the fracture toughness and potential for lamellar tearing of the steam generator and reactor coolant pump support materials. Preparation of this information is in progress and the submittal will be during February, 1978 along with an evaluation of the potential for lamellar tearing.

Very truly yours,

William O. Parker, Jr.
