Re: Oconee Unit 1  
Docket No. 50-269

Dear Mr. Moseley:

My letter dated January 7, 1976 transmitted Abnormal Occurrence Report AO-269/76-15 concerning the failure of borated water storage tank level instrumentation due to failure of the heat tracing system. The corrective action section of that report stated that a modification to the heat tracing system had been completed for Unit 1 to improve the redundancy of the power supplies. This modification was scheduled for completion on Oconee Units 2 and 3 by March 15, 1976.

Due to schedule difficulties in obtaining the engineering drawings and the necessary equipment, it is currently planned to complete these modifications by May 1, 1976.

Very truly yours,

*W. O. Parker, Jr.*
