Re: Oconee Nuclear Station  
Docket Numbers 50-269, 50-270 and 50-287

Dear Mr. Rusche:

Pursuant to Section V.B of Appendix I to 10 CFR 50, submitted herewith for Oconee Nuclear Station are forty copies of two documents:

- (1) Evaluation of Compliance with 10 CFR 50 Appendix I and Supporting Information
- (2) Proposed Technical Specifications for Compliance with 10 CFR 50 Appendix I

The information contained in the attached is consistent with the guidance provided by Mr. Robert A. Purple's letters of February 19, 1976 and May 7, 1976. As noted in Mr. Purple's May 7, 1976 letter, however, it is recognized that the proposed technical specifications provided are subject to further modification. Accordingly, as discussions with the staff proceed on this matter, changes to the content of the proposed specifications will be made, as necessary. Also, at some future date, appropriate format revisions will be made in order that the attached may be submitted pursuant to 10 CFR 50 §50.90 for incorporation into the Oconee Technical Specifications.

With regard to the diagrams (i.e., "PO" drawings) identified in the "Radioactive Source Term Information" section of the EVALUATION OF COMPLIANCE WITH 10 CFR 50 APPENDIX I AND SUPPORTING INFORMATION document, one set of the applicable drawings is also forwarded herewith.

Very truly yours,

*William O. Parker, Jr.*
