Mr. Edson G. Case, Acting Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Mr. R. Reid, Chief
Operating Reactors Branch #4

Reference: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287

Dear Mr. Case:

My letter of January 3, 1978 submitted a proposed revision to the Oconee Nuclear Station Technical Specifications which concerned power-imbalance trip setpoints. The revision was required due to an error that was identified in the computer software used to process the incore detector signal.

Subsequently, all required computer software changes were made in order to eliminate this error. This, in turn, eliminates the necessity to revise the Technical Specifications. Thus, the request submitted on January 3, 1978 is hereby rescinded from further staff review.

Very truly yours,

William O. Parker, Jr.
