Re: Oconee Units 1, 2, and 3  
Docket Nos. 50-269, -270, and -287

Dear Dr. Morris:

This letter supplements my letter of October 18, 1971 which submitted the following documents in support of Duke Power Company's Application for Licenses for the Oconee Nuclear Station which is under construction pursuant to provisional construction permits CPPR-33, -34, and -35 issued by the Commission on November 6, 1967:

1. Supplement to Environmental Quality Features of Keowee-Toxaway Project (Supplemental Environmental Report), October, 1971.
2. Request for the Issuance of an Operating License Authorizing Limited Power Operations, Unit No. 1, Docket No. 50-269.
3. Statement by the Applicant Why the Construction Permits Should Not Be Suspended, Units 2 and 3, Docket Nos. 50-270, 50-287.

These documents should have been submitted under oath or affidavit. Therefore, having been duly sworn, I hereby certify that I am a Senior Vice President of Duke Power Company; that I am authorized on the part of said company to sign and file these documents; and that all matters set forth therein are true and correct to the best of my knowledge, information, and belief.

Re: Oconee Units 1, 2 and 3  
Docket Nos. 50-269, -270 and -287

Dear Dr. Morris,

In accordance with the requirements of Appendix D, 10 CFR 50, Duke Power Company hereby submits its Supplemental Environmental Report on the Oconee Nuclear Station. This supplement provides the additional information and technical justification required

1. By Sections A., C. and D. for Oconee Units 1, 2 and 3 to support issuance of full term operating licenses.
2. By Section D. 3. to support the issuance of an operating license authorizing the loading of fuel and limited operation within the scope of Section 50.57(c), 10 CFR 50, for Unit 1, pending completion of NEPA review, if such authorization is necessary.
3. By Section E. to show cause why the construction permits for Units 2 and 3 should not be suspended, in whole or in part, pending completion of NEPA review.

Also enclosed is the Applicant's "Request for the Issuance of an Operating License Authorizing Limited Power Operations" on Oconee Unit 1, in the event the NEPA review has not been completed in time for the issuance of a full term operating license, making such special authorization necessary.

Dr. Peter A. Morris

Page 2

October 18, 1971

There is also enclosed the "Statement by the Applicant Why the Construction Permits Should Not be Suspended" for Oconee Units 2 and 3 pursuant to Section E., Appendix D, 10 CFR 50.

These documents clearly substantiate that continued construction and operation will not give rise to any significant adverse impact on the environment but, rather, will enhance the environment and the quality of life in the surrounding area.

Yours very truly,

*A. C. Thies*
