Dear Dr Morris:

Duke Power Company is filing herewith Amendment No 6 to its application for licenses for the Oconee Nuclear Station, which is under construction pursuant to provisional construction permits issued by the Commission. This filing includes three signed original copies of the Amendment and 100 copies of Supplement 6 to the Preliminary Safety Analysis Report.

Amend No 6 consists of information voluntarily submitted as a result of discussions with the Advisory Committee on Reactor Safeguards prior to issuance of construction permits and subsequently with the Division of Reactor Licensing. Supplement 6 to the Preliminary Safety Analysis Report is designed for insertion in Volume II thereof. It contains information given members of your staff and is submitted with the hope that the matters covered can now be resolved.

Yours very truly,
