Re: Docket Nos 50-269, -270 and -287

Dear Sir:

**Regulatory Suppl File Cy.**

*SEE 50-269*

Duke Power Company is filing herewith Amendment No 4 to its Application for Licenses for its proposed Oconee Nuclear Station. This filing includes three signed original copies and 100 copies of material applicable to the Preliminary Safety Analysis Report.

This amendment is in a format designed to keep current the Preliminary Safety Analysis Report. For convenient reference, it is suggested that the amendment material be inserted in those documents previously filed as follows:

1. Please insert the attached pages as replacements or supplements to existing material in the 100 copies of the Preliminary Safety Analysis Report (Serial Nos 79-178).
2. Please make corrections to the Preliminary Safety Analysis Report in accordance with the attached errata sheets. This applies to 100 copies (Serial Nos 79-178).
3. Answers to the questions contained in the Director's letter of May 11, 1967 are included as Supplement 4 which should be inserted at the back of Volume II of the 100 copies of the Preliminary Safety Analysis Report (Serial Nos 79-178).

Yours very truly,

W S Lee
