Docket Nos. 50-269, -270, -287

Dear Sir:

Your letter of May 5, 1977 requested that a technical specification amendment be proposed to incorporate limits on primary and secondary coolant iodine activities. On July 8, 1977, a proposed revision to the Oconee Technical Specifications was submitted for approval. In as much as there has been no apparent action on the part of the NRC staff in this matter, the request is rescinded.

Very truly yours,

William O. Parker, Jr.
