Dear Sir:

I am a very disturbed Pickens County resident. There is a growing concern among the communities dealing with nuclear reactors. This concern deals mainly with their effect on the environment and the health of the county residents.

As you are probably aware, the town of Clemson is situated about ten miles from the recently completed Duke Power project on Lake Keowee-Towaway.

I would very much appreciate any information or helpful advice you are able to send me concerning this matter.

Thank you for your attention.

Sincerely yours,  
Angela Stepiel
