Dear Mr. Moseley:

My letter of November 21, 1975 stated that a training program concerning Oconee emergency power would be established and administered to area dispatchers, system dispatchers, Lee operating personnel, Steam Production operating personnel and Central Switchyard operating personnel. In that letter it was stated that the training course was under preparation and would be administered by January 15, 1976. The training course has been prepared, a practice session has been given, and the first group of personnel will receive the training on January 15, 1976. However, since most of the personnel are on shift work, several sessions of the training course will be necessary. These sessions will be given weekly and will be completed by February 12, 1976.

Very truly yours,

William O. Parker, Jr.
