Attention: Mr. A. Schwencer, Chief
Operating Reactor Branch #1

Reference: Oconee Nuclear Station
Docket Nos. 50-269, -270, -287 REGULATORY DOCKET FILE OF

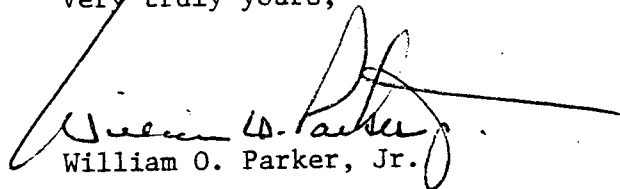

Dear Sir:

Your letter dated May 23, 1977 requested additional information in order to make a determination as to the adequacy of reactor vessel material surveillance specimens employed to reasonably represent the limiting materials in the reactor vessel beltline region. Also, information concerning the materials employed in the reactor vessel construction was requested.

In response to this request, please find attached forty copies of a response prepared by the Babcock and Wilcox Company for the three Oconee Nuclear Station reactor vessels. An affidavit of Mr. James H. Taylor of B&W is also provided which requests that this information be considered proprietary and be withheld from public disclosure pursuant to 10CFR2.790.

As requested by question 5.d, please find attached one copy of report BAW-1006A, Rev. 3, January, 1975 "Reactor Vessel Material Surveillance Program".

Very truly yours,

William O. Parker, Jr.
