Docket No. 50-269, -270, -287

Dear Sir:

Your letter dated August 18, 1976 requested that we propose changes to the Oconee Nuclear Station Technical Specifications which would incorporate secondary water chemistry limiting conditions for operation and surveillance requirements. In our letter dated September 22, 1976, these changes were requested. Due to subsequent inaction on this item and the desire to minimize outstanding items, this request is hereby rescinded.

Very truly yours,

William O. Parker, Jr.
