RE: Oconee Nuclear Station  
Docket Nos. 50-269, -270, -287

Dear Sir:

My letter of December 16, 1977 contained information concerning the Oconee Nuclear Station steam generator tube degradation problem. The information in the report was requested to be considered proprietary as documented in an affidavit by Mr. J. H. Taylor of B&W.

In a January 2, 1978 letter from Mr. Taylor, the proprietary classification of the above report was removed by B&W. Therefore, please disregard the affidavit that was forwarded in my December 16, 1977 letter and consider the report as non-proprietary.

Very truly yours,

  
William O. Parker, Jr.
