OCT 4 1971

Mr. Harold L. Price
Director of Regulation
U.S. Atomic Energy Commission
Washington, D.C. 20545

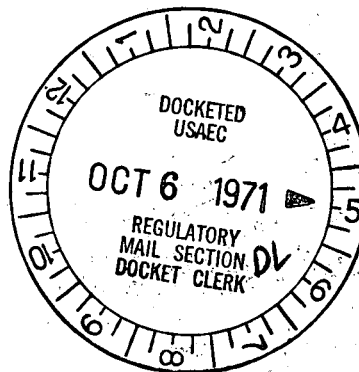

Dear Mr. Price:

This is in response to Mr. DeYoung's letter of July 12, 1971, transmitting copies of the Pre-Operational Environmental Radioactivity Monitoring Program Report for the Duke Power Company's Oconee Nuclear Station, South Carolina, AEC Docket Nos. 50-269, 270, and 287.

The environmental monitoring program for this station for the most part is adequate, but data for benthic organisms are omitted in some tables. The list of criteria for the selection of sampling locations as mentioned on pages 6 and 7 of the report appears adequate. However, in subsequent tables, listing samples and locations (summary, 2-1 and 2-1a) no data are shown for benthic organisms. Also, the distance from the radioactive waste discharge point to the nearest downstream sampling station is not clearly indicated.

Sincerely yours,

Willis King
Assistant
Director

Mr. William M. White, Chief
Division of River Basin Studies
Bureau of Sport Fisheries and Wildlife
U.S. Department of the Interior
Washington, D.C. 20240

Dear Mr. White:

Three copies of Duke Power Corporation's letter dated June 25, 1971 transmitting the Pre-Operational Environmental Radioactivity Monitoring Program Report dated June 15, 1971 are enclosed for your use. The report relates to the Oconee Nuclear Station located in Oconee County, South Carolina, and contains information on the pre-operational phase of the Environmental Radioactivity Monitoring Program for the Station.

Sincerely,

Original Signed by
Charles G. Long
