Mr. William S. Lee
Senior Vice President,
Engineering and Construction
Duke Power Company
Power Building, Box 2178
Charlotte, North Carolina 28201

Dear Mr. Lee:

I refer to your letter of September 1. We appreciated having the opportunity to consider the views of Duke Power Company in connection with our decision to furnish copies of the Oconee inspection reports to counsel for the Carolina Environmental Study Group (intervenor in the McGuire construction permit proceeding). As you know, portions of the reports have now been supplied and the staff will contact you again regarding the requests of your vendors for the deletion of proprietary data from the material not yet furnished.

You expressed concern with regard to possible misunderstanding of the nature and emphasis of inspection reports. We believe the inspection reports reflect the objective accumulation of facts which support the findings of the inspectors. These reports do emphasize matters that require attention in the interest of safety as is their purpose. They also present the scope of the inspection, thus making evident those areas where no significant deficiencies were found. It would appear more appropriate to elaborate on this matter if and when any misunderstanding arises.

Copies of your September 1 letter and this response are being placed in the public document rooms and distributed to the parties in the McGuire proceeding.

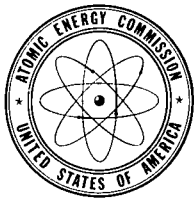

Sincerely,

Original Signed by
E. J. Bloch
Edward J. Bloch
Deputy Director of Regulation

NOTE TO E. J. BLOCH

LETTER TO WILLIAM S. LEE

We propose to substitute the following for sentence #2 in paragraph #2:

"We believe the inspection reports reflect the objective accumulation of facts which support the findings of the inspectors. These reports do emphasize matters that require attention in the interest of safety as is their purpose. They also present the scope of the inspection, thus making evident those areas where no significant deficiencies were found."

Retyped

Mr. William S. Lee
Senior Vice President
Duke Power Company
Power Building, Box 2178
Charlotte, N. C. 28201

Dear Mr. Lee:

I refer to your letter of September 1 to Edward J. Bloch. We appreciated having the opportunity to consider the views of Duke Power Company in connection with our decision to furnish copies of the Oconee inspection reports to counsel for the Carolina Environmental Study Group (intervenor in the McGuire construction permit proceeding). As you know, portions of the reports have now been supplied. I understand that the Directorate of Regulatory Operations will contact you again regarding the requests of your vendors for the deletion of proprietary data from the material not yet furnished. You expressed concern with regard to possible misunderstanding of the nature and emphasis of inspection reports. We are confident that Duke Power Company will find opportunity, if the need arises, within the hearing process or elsewhere, to place the reports "in proper perspective."

Sincerely yours,

Howard K. Shapar
Assistant General Counsel
Licensing and Regulation
