Subject: Request for Revision to 2015 Report of Exempt Distribution; Newport Corporation; License No. 04-35246-01E
Attachments: RIS 2014-10 Exempt Distribution.pdf

Dear Mr. Ly,

I've reviewed your exempt distribution report dated January 26, 2016.

You reported the amount of ThF₄ transferred rather than the amount of source material, i.e., thorium, as required by 10 CFR 40.53(c)(3)(ii), which requires you to provide, for each type of source material in each type of product and each model number, if applicable, the total quantity of the source material. Please revise and resubmit your report to specifically state the amount of source material, i.e., thorium, that you transferred in each model of product. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
Eric
