# **Streamlining the Significance Determination Process**

**NRC Public Meeting with Industry  
14 January 2016**

# Agenda

- Summarize discussions from 17 November 2015 public meeting
- Present status of SDP working group activities
- Solicit feedback from industry on ways to improve the SDP for the reactor safety cornerstones
- Discuss the proposed pilot activity
- Questions and answers with the public

# November 17 2015 Meeting Summary (1)

- SDP working group team charter
- SDP resources
- Alignment on problem statement
- Integrated risk-informed decision-making

# November 17 2015 Meeting Summary (2)

- Limitations of PRA use
- Forward-looking SDP
- Better communications between NRC and licensees

## **SDP Working Group Activities**

- Use of an Integrated Approach to Decision-making
- Modify SDP timeliness metric
- Formally notify licensees sooner for GTG findings giving a definite time to respond
- Development of the Inspection Finding Review Board
- Miscellaneous enhancements

# Roundtable Discussion

## Industry's Views on Streamlining the SDP

## Proposed Pilot Activity

- Goal to begin pilot in April or May 2016 ending in December 2016.
- All inspection findings greater than Green are envisioned to be involved.
- Only the reactor safety cornerstones would be affected.
- Intend to run a “live” pilot.
- Considering some form of table top exercise.

# Question and Answer Period
