**Re: Evanston Regional Hospital (License Number 49-27532-01)**

Dear Ms. Hanson:

I am writing on behalf of our client, Community Health Systems, Inc. ("CHSI"), and its subsidiary, Evanston Hospital Corporation, which owns and operates Evanston Regional Hospital in Evanston, Wyoming (the "Provider"). The purpose of this letter is to confirm our conversation on January 28, 2016, regarding the amendment to the Provider's above-referenced radioactive materials license that will be required as a result of the proposed transaction discussed in my letter dated November 4, 2015 (the "Proposed Spin-off Transaction").

As we discussed, the Proposed Spin-off Transaction requires the Provider to submit an amendment request and related documentation with the United States Nuclear Regulatory Commission, Region IV Office (the "NRC"). In my letter dated November 4, 2015, I stated that the Proposed Spin-off Transaction was expected to be completed in the first quarter of 2016. However, the Proposed Spin-off Transaction has been delayed, and it is currently expected to be completed in the first half of 2016, subject to certain customary conditions. I understand that, as a result of the delay of the completion of the Proposed Spin-off Transaction, the current amendment request that is pending will be voided.

Based on your instructions, we intend to provide the NRC with notice when we have more definite information regarding when the Proposed Spin-off Transaction will be completed. At that time, the Provider will renew its amendment request and submit the required documentation to the NRC. Thank you for your attention to this matter. If you have any questions, or if you require any additional information, please do not hesitate to contact me at (615) 252-3886 or pmiller@babc.com.

Very truly yours,

BRADLEY ARANT BOULT CUMMINGS LLP
