Lisle, IL 60532-4352

Re. Mail Control Number 589519

Ms. Dalzell-Bishop,

This is in response to your request for additional information for the license application of Michigan Institute of Urology, P.C. We shall determine the activity of each patient dosage as required by 10 CFR 35.63. Initially, we plan to obtain unit dosages from the radiopharmacy and will correct the activity using decay calculation. If it is decided to obtain a dose calibrator, we will use it with an appropriate calibration factor as determined with a calibrated standard obtained from the manufacturer.

If you should have any questions, please contact us or our consultant, David Close at 888-456-5255. Thank you for your attention.

Sincerely,

Bonnie Greenblatt
Practice Administrator
Michigan Institute of Urology
