**Subject:** Request for Clarification of Information in 2015 Report of Exempt Distribution; DRS Sustainment Systems, Inc.; License No. 24-23912-02E  
**Attachments:** RIS 2014-10 Exempt Distribution.pdf

Dear Mr. Schardan,

I've reviewed your exempt distribution report for 2015 and further clarification of the information presented in the report is necessary.

In the report you indicated that 1 model ES6510-01 lamp containing 180 mCi was transferred; however, you indicated that the total amount of tritium transferred was 1.08 Ci. If one lamp containing 180 mCi was transferred, it seems that the total tritium transferred should be 180 mCi. Please revise and resubmit your report to address the apparent inconsistency. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution  
Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,  
Eric
