**To:** 'Tri Nguyen'  
**Subject:** Request for Second Revision to 2015 Report of Exempt Transfers; Diamond Ground Products; License No. 04-35195-01E

Dear Mr. Nguyen

I've reviewed your revised 2015 exempt distribution report that was transmitted with your email dated February 9, 2016.

You have reported the amount of thoria (i.e., thorium dioxide) that you distributed rather than the amount of source material (i.e., thorium). Please revise and resubmit your report to indicate the amount of thorium that you distributed. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution  
Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,  
Eric

**To:** Tri Nguyen; Tri Nguyen

**Subject:** Request for Revision to 2015 Report of Exempt Transfers; Diamond Ground Products; License No. 04-35195-01E

Dear Mr. Nguyen,

I've reviewed your exempt distribution report dated January 29, 2016 that was provided to the NRC via an email with the same date.

Please revise and resubmit your report to indicate that your products are transferred for use under 10 CFR 40.13(c)(1)(iii). With regard to this regulatory reference, two of the digits appear

to have been transposed. Also, your email and its attachments did not provide the total quantity of the source material (in your case, thorium) transferred for each type of product and each model number. Therefore, the revision to your report must include, for each type of source material in each type of product and each model number, the total quantity of the source material, as required by 10 CFR 40.53(c)(3)(ii). Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution  
Director, Office of Nuclear Material Safety and Safeguards  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,  
Eric
