Mr. Jack Gadzala,

On Monday, February 8, 2016, NRC staff had a discussion via conference call with Dominion Energy Kewaunee, Inc. (DEK) staff to discuss and clarify draft RAIs (Request for Additional Information) regarding DEK's license amendment request 259 (Agency-Wide Documents Access and Management System (ADAMS) Accession Number ML15261A238), dated September 14, 2015.

As a result of the February 8 discussion, DEK found the four draft RAIs (without change) acceptable. Please find attached the final RAIs (ADAMS Accession Number ML16041A156).

Also, during the discussion, NRC staff was informed that DEK would provide a response to the final RAIs within 30 days from receipt of this official acknowledgement.

If you have any questions regarding this subject, please contact me by email or at the numbers below.

Regards,

Ted Carter
