Bob,

We are still in the process of the initial paperwork for Gases101 incoming document. We noticed that the contact persons on the application Form 313 was signed by Sam Summers, and the name of person to be contacted about this application is Scott Tippen.

Based on our licensing policy, we cannot discuss this application status and processes with you. If you would like to be the designated person for this application, you will need Mr. Summers to send us a letter stating that you are one of the persons to be contacted about this application, in addition to Mr. Tippen.

Shirley

Shirley,

Internet is working here tonight, probably a lot of people watching Super Bowl instead of being on line.

How does the Gases 101 paperwork look? Is it complete as it should be for processing?
