WCAP-17096-NP, Rev. 2
Project Number 694

OG-13-382

Mr. Kyle Amberge, EPRI Project Manager
Electric Power Research Institute (EPRI)
3420 Hillview Avenue
Palo Alto, CA 94304

Subject: PWR Owners Group
Transmittal of AREVA Revised Text for Draft WCAP-17096-NP Revision 2 for Transmittal to EPRI for NRC Review (PA-MS-C-0473R5)

- References:
1. Transmittal of AREVA Revised Text for Draft WCAP-17096-NP Revision 2 for Transmittal to EPRI for NRC Review (PA-MS-C-0473R4), OG-13-275, dated August 9, 2013.
 2. Letter, MRP 2013-019, "Proposed Edits to WCAP-17096-A Draft," dated August 5, 2013.
 3. Letter, Tammy Natour (AREVA) to Jim Molkenthin (Westinghouse) "AREVA Revised Text for Draft WCAP-17096-NP Revision 2 for Transmittal to EPRI for NRC Review", AREVA-13-02949, dated October 23, 2013.

Dear Mr. Amberge:

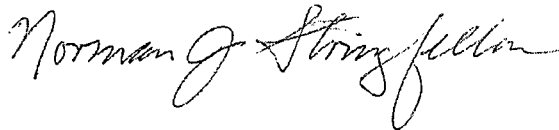

The purpose of this letter is to provide additional changes to the proposed revised text to the draft WCAP-17096-NP Revision 2 in Reference 1. The revised text was first provided to the NRC Staff from the EPRI MRP in Reference 2. Based on informal feedback from the NRC reviewer that was provided on September 11, 2013, AREVA has updated the proposed edits to WCAP-17096-NP to address his comments (Reference 3). This updated text has been reviewed by the PWR Owner's Group Materials Subcommittee (MSC) B&W plant representatives and comments have been incorporated. The changes and additions are shown in red font for ease of use. It is now ready to be transmitted to EPRI for review by the NRC staff.

The PWROG would like to request that we are kept on distribution, via letter, once the revised text sections from AREVA are submitted to the Staff. Enclosure 1 to this letter provides the updated revised text sections received from AREVA in Reference 3. Updates to the WCAP from the Westinghouse side are in process and will be provided over the next two months under two separate cover letters.

Designated as original
Jonathan Rowley (Jonathan Rowley)
February 9, 2016

If you have any questions feel free to contact Mr. Jim Molkenthin of the PWR Owners Group Project Management Office at (860) 731-6727.

Regards,

Jack Stringfellow, SNOG
Chairman, PWR Owners Group
