NRC Docket No. 70-3103

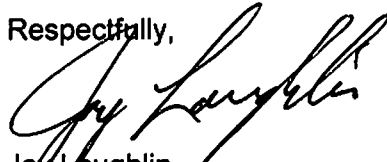

Subject: Application for NRC Export License

Pursuant to 10 CFR 110.31(a), Louisiana Energy Services, LLC (dba URENCO USA (UUSA)) herewith applies for a specific license to export Special Nuclear Material to Japan. This export is intended for use as reload fuel for reactors operated by The Kansai Electric Power Co., Inc. ("Kansai"). As the NRC may be aware, Kansai has recently received approval from the Japanese Nuclear Regulation Authority for the restart of two reactors (Takahama units 3 & 4). Further, on December 24, 2015, a court injunction prohibiting restart of these reactors was lifted. As a result, both Takahama units are expected to restart within the next few months. In accordance with 10 CFR 110.31(b) and (e), this application is being filed on NRC Form 7 which incorporates the information required by 10 CFR 110.32.

Enclosure 1 contains the completed NRC Form 7. Also, in compliance with 10 CFR 110.31(c), this application is accompanied by the \$4,300.00 fee (Enclosure 2) specified under Category 15.C of 10 CFR 170.31 for applications on export of nuclear material requiring the assistance of the Executive Branch to obtain foreign government assurances.

Should there be any questions concerning this submittal, please contact Rick Medina, UUSA Licensing and Performance Assessment Manager (Acting), at (575) 394-5846.

Respectfully,

Jay Laughlin
Chief Nuclear Officer and Head of Operations
