I didn't forget about you Steve – We have a letter due to you soon.

We did remove your address from the 2 documents in ADAMS promptly after you brought the matter to my attention.

If you can find any other NRC documents available in ADAMS with your address on them, I will have that information removed as well.

Based on a quick Internet search I did on your name, I recommend that you look at other locations (LinkedIn, your blog, etc.) where you have either published your address, or strongly suggested where you live, if you are concerned with the release of that information.

Thanks for sharing the letter to David Williams.

Subject: [External_Sender] RE: NRC letter of 11/19/15 to me

Mr. Barkley, it is approaching a month since I contacted you about this serious matter. Can you give me a update on when I should be receiving a letter from the NRC?

As I stated in our phone call I am requesting that the NRC in this letter acknowledge I contacted the department in King of Prussic on a certain date now almost a year ago with copies sent in attachments about threats on my life, acts of intimidation on members of my family, car burned and totally destroyed, another car windows and head lights smashed. home and hotel room at the former Sheraton Grand broken into. All this is on file at Rowley and Seabrook NH Police. Two of these incidents was reported and is on file with the White House Secret Service.

I also want this information sent to Chairman Stephen Burns, other NRC Commissioners and the NRC Executive Director who still has not replied to my requests on other matters. .

Please have Mr. Burnell contact me about questions I posed for Chairman Stephen Burns to address which were not replied to me in his letter to me of November 19, 2015.

I look anxiously to replies to all of my requests.

Sincerely,

Stephen B. Comley Sr.

Mr. Richard Barkley
Nuclear Regulatory Commission
Office of Public Affairs

That letter (attached) which is now public could get me killed. Mr. Barkley, I made you well aware I have had several threats on my life and a car burned on my farm which is also on record with the Secret Service at the White House.

Mr. Barkley you are well aware I informed quite a while ago to have any letters which the NRC sends me, to make sure this address on it: Stephen B. Comley Sr., Founder of We The People a National Whistleblower Non-Profit Organization, Box 646, Rowley MA. 01969.

I also sent that address to Mr. Burnell in a e-mail (will send in next e-mail) so there is no reason why Mr. Fred Bower III, Chief, Reactor Projects Branch 3, Division of Reactor Projects sent this 11/19/15 to the address on the letter which is now I stress is public.

I want a full investigation and letter of how this happened.

In addition in the questions I posed for Chairman Stephen Burns to address it is very evident Mr. Burns chose not to address many of them. If you compare the questions I sent in the e-mail to Mr. Burnell, it would be very easy for you to pick out the ones that were not addressed in the NRC letter to me of 11/19/15. If you need further clarification please contact me.

Lastly for the record I am attaching the recent letter of 10/22/15 I wrote to Former NRC IG, David Williams

Thank you
