Dear Dr. Roberts:

It has come to our attention that Amendment No. 08 to NRC License No. 13-26020-01 issued on March 10, 2011, contained an error. Specifically, a part of the mailing address listed in the renewal application dated October 27, 2010 was inadvertently omitted in the license. This was corrected. In addition, we added License Condition 11 to name the Radiation Safety Officer, updated License Condition 16 with the inventory records retention requirement, and renumbered for Subitems in Items 6, 7, 8, and 9.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate answers and corrections.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,
