application for license renewal

SUMMARY AND ACTION REQUIRED (IF ANY)

I contacted Paul and informed him that they will need to resubmit their application for renewal and address all of the items in NUREG-1556, volume 12. The application that they submitted, for the most part, includes statements that there were no changes. The current license incorporates program descriptions in an application dated 2005, and letters dating back to 2006 and 2009. As a result of these older documents, the licensee needs to go through their program and submit a more current application.

Paul indicated that they would use volume 12 and resubmit the application directly to me via e-mail no later than 2/12/16.
