SUBJECT: VOID LETTER CONCERNING AMENDMENT REQUEST CONTROL NUMBER
589680

Dear Mr. Johnson:

The Nuclear Regulatory Commission (NRC) has received your amendment request dated November 12, 2015 for change of your Radiation Safety Officer (RSO) that was enclosed in your email request dated November 18, 2015. A review of the amendment request conducted by this office identified the need to obtain additional information from your company. E-mail correspondence was received from you on February 11, 2016, notifying the NRC of the updated information of the unforeseen circumstance regarding the individual that was to be named Radiation Safety Officer (RSO).

Due to the unforeseen circumstance, your amendment request is being voided without prejudice. You can provide the NRC with the information of the new individual that will be named as the RSO and the corresponding qualification documentation, as expeditiously as possible to: US NRC Region IV, ATTN: DNMS Licensing Assistant, 1600 East Lamar Boulevard, Arlington, TX 76011-4511, and the NRC will reactivate your amendment request and will complete the review process.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink that reads "Latischa M. Hanson".

Latischa Hanson, Health Physicist
Nuclear Materials Safety Branch B
