Dear Mr. Colar,

I've reviewed your exempt distribution report dated January 25, 2016 for the 2015 reporting period.

Please revise and resubmit your report to indicate that your products were transferred for use under 10 CFR 30.15(a)(8)(iv) as required by 10 CFR 32.16(a)(2). Also, you have reported the maximum amount of Kr-85 that may be transferred in each lamp and the total amount transferred. Please note that the reporting requirements in 10 CFR 32.16(b) refer to the actual amounts of radioactivity transferred and not the maximum. Please revise and resubmit your report to indicate the actual amounts of radioactivity transferred. Further information about the requirements that apply to annual reports of exempt distribution can be found in the attached Regulatory Issue Summary.

A hard copy of your revised report should be addressed and sent to:

ATTN: Document Control Desk/Exempt Distribution
Director, Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please be aware that upon your request, proprietary information submitted to the NRC may be withheld from public disclosure. To do this, you must follow the procedures in 10 CFR 2.390(b) including requesting withholding at the time the information is submitted and complying with the document marking and affidavit requirements set forth in 10 CFR 2.390 (b)(1).

If you have any questions, please feel free to contact me.

Regards,
Eric
