Charles H. Lazarre, M.S., MBA, DABR, DABSNM
Radiation Safety Officer
Digirad Imaging Solutions, Inc.
1048 Industrial Court
Suite E
Suwanee, GA 30024

Dear Mr. Lazarre:

Enclosed is Amendment No. 11 to your NRC Material License No. 10-29283-02 in accordance with your request. Please also note that we have added additional NRC Agencywide Documents Access and Management System (ADAMS) accession numbers to License Condition No. 15 in accordance with recent changes to NRC policy. Other than the licensee's December 7, 2015 letter transmitting the Radiation Safety Officer (RSO) Delegation of Authority and the January 19, 2016 letter communicating information related to your oversight of the Radiation Safety Program, no new documents have been added to Condition No. 15. However, some documents referred to as facsimiles in previous amendments have been revised to be listed as letters.

Changes made to your license are printed in **bold** font. Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

C. Lazarre

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Sara A. Forster".
