General Comment

<http://www.snmml.org/AboutSNMML/Content.aspx?ItemNumber=5609>

This is the information pamphlet that the facility I am currently employed at gives the patient to read. We also verbal go over instructions prior to patient arrival in the department. The radiologist again reviews the information when the patient is in the department for treatment and let's the patient know of any potential side effects from treatment, provide RAI pamphlet from SNMML to the patient, and a copy of all the instruction that we reviewed with the patient.
