**Subject:** Issuance of Inspection Report Related to SACE 2.206 Petition regarding St. Lucie Unit 2 Steam Generator Replacement

Ms. Diane Curran  
Harmon Curran Spielberg & Eisenberg LLP  
Counsel for SACE

Dear Ms. Curran,

This in reference to the petition you submitted on behalf of the Southern Alliance for Clean Energy (SACE) on March 10, 2014, regarding St. Lucie plant, Unit 2 steam generators replacement. You initially filed the petition as a request for a hearing. However, the Commission, by a Memorandum and Order (CLI-14-11) dated December 19, 2014, referred your request to the Executive Director for Operations for disposition under Title 10 of the *Code of Federal Regulations* (10 CFR) Section 2.206. On September 28, 2015, the NRC staff issued an acknowledgment letter to you partially accepting the petition for review under 10 CFR 2.206. The portion of the 2.206 petition the staff accepted involved the licensee's 50.59 evaluation of the steam generator replacements with respect to a change in a methodology as described in the Updated Final Safety Evaluation Report.

On October 5, 2015, I sent you a copy of September 28, 2015 acknowledgment letter. On December 7, 2015 and February 3, 2016, I sent you 60 day updates stating that the NRC staff review of the accepted portion of the petition was ongoing.

This email is to inform you that on February 5, 2016, the NRC issued St. Lucie Plant - NRC Integrated Inspection Report 05000335/2015004 and 05000389/2015004. The report became publicly available on February 10, 2016 in ADAMS at Accession No. ML16036A156. In Section 4, 4OA2.5, "(Closed) Unresolved Item 05000335,-389/2014005-02, Design Basis Review for Unit 1 and Unit 2 Steam Generator Tube-to-Tubesheet Joint," Subsection b.2, "10 CFR 50.59 Evaluation for the Unit 2 Steam Generator Tube-to-Tubesheet Welds," the NRC staff addressed issues related to the 2.206 Petition. The NRC staff will use this information to develop a proposed Director's decision.

Per MD 8.11, I will notify you every 60 days of the status of the petition, or more frequently if a significant action occurs.

Thanks,

Dennis Galvin  
Project Manager
