**Docket:** NRC-2015-0272

Assessment of Radioactive Discharges in Ground Water to the Unrestricted Area at Nuclear Power Plant Sites

**Comment On:** NRC-2015-0272-0002

Assessment of Radioactive Discharges in Ground Water to the Unrestricted Area at Nuclear Power Plant Sites; Request for Comment on Draft Regulatory Guide

**Document:** NRC-2015-0272-DRAFT-0010

Comment on FR Doc # 2015-31254

## Submitter Information

*12/11/2015*

*FR 70028*

**Name:** Maureen Roy

## General Comment

*9*

In 2006, the US National Academy of Sciences concluded that there is no safe level of human exposure to ionizing radiation. Therefore no leakage of radioactive discharges in ground water is acceptable to the citizens of the United States of America.
