MEMORANDUM TO: Mohamed Shams, Chief
Hazards Management Branch
Japan Lessons-Learned Division
Office of Nuclear Reactor Regulation

FROM: Juan F. Uribe, Project Manager */RA/*
Hazards Management Branch
Japan Lessons-Learned Division
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF FEBRUARY 8, 2016, PUBLIC MEETING ON
IMPLEMENTATION OF NEAR-TERM TASK FORCE
RECOMMENDATION 2.1, FLOODING HAZARD
REEVALUATIONS, RELATED TO THE FUKUSHIMA
DAI-ICHI NUCLEAR POWER PLANT ACCIDENT

On February 8, 2016, the Nuclear Regulatory Commission (NRC) staff held a Category 2 public meeting¹ with stakeholders related to flooding hazard reevaluations that are being performed as part of Recommendation 2.1 from "Recommendations for Enhancing Reactor Safety in the 21st Century," a report issued by the post-Fukushima Near-Term Task Force (NTTF) on July 12, 2011.² On March 12, 2012, the NRC issued a request for information pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Section 50.54(f), partly to implement this recommendation.³

Specifically, the purpose of the meeting was to discuss the revised guidance that the Nuclear Energy Institute (NEI) is developing that will enable licensees to assess the impact of the reevaluated hazard on their sites using focused evaluations or full scope integrated assessments. Additional information related to this guidance can be found in COMSECY-15-0019⁴.

During the meeting, the NRC presented⁵ background information related to the Fukushima NTTF activities, provided timelines and next steps for a path forward with a key aspect being the submittal of the draft guidance by NEI on March 1, 2016 for staff review.

CONTACT: Juan Uribe, NRR/JLD

¹ The original meeting notice is available via the Agencywide Documents Access and Management System (ADAMS) under Accession No. ML16032A458.

² The NTTF report is available under ADAMS Accession No. ML111861807.

³ The 50.54(f) letter is available under ADAMS Accession No. ML12053A340.

⁴ The June 30, 2015, COMSECY can be found at ADAMS Accession No. ML15153A104.

⁵ The NRC presentation can be found at ADAMS Accession No ML16041A065.

M. Shams

- 2 -

The NEI presented⁶ to the NRC the overall layout and contents of the proposed guidance, the key technical areas which the guidance intends to address and a walkthrough of the overall screening approach that licensees would follow when using the guidance.

Prior to concluding the meeting, an opportunity for public comment was afforded. Comments and public meeting feedback forms were received. NEI had an opportunity to comment on this meeting summary for accuracy.
