Southern Nuclear Operating Company  
Vogtle Electric Generating Plant Units 3 and 4  
Report of UFSAR Chapter 14 Changes to Initial Test Program  
In Accordance with License Condition 2.D.(7)(a)

Ladies and Gentlemen:

In accordance with license condition 2.D.(7)(a) of the Vogtle Electric Generating Plant (VEGP) Units 3 and 4 Combined Licenses, Numbers NPF-91 and NPF-92, respectively, Southern Nuclear Operating Company (SNC) is required to report, within 30 days, a change made to the Initial Test Program described in Final Safety Analysis Report Section 14, in accordance with 10 CFR 50.59(d).

On January 29, 2016, SNC approved Licensing Document Change Request (LDCR) 2015-132, changing the description of the Responsible Design Organization in the Initial Test Program as described in the VEGP Units 3&4 Updated Final Safety Analysis Report (UFSAR), Subsection 14.2.2.3, Joint Test Working Group, by removing the reference to Chicago Bridge and Iron (CB&I). This change is a result of the recent Westinghouse Electric Company acquisition of CB&I Stone & Webster Inc., thereby eliminating the need to specify CB&I as a separate responsible design organization.

This change to the UFSAR was evaluated, and it was determined that prior NRC approval was not required.

This letter contains no regulatory commitments.

If you have any questions regarding this letter, please contact Ms. Kelli Roberts at (205) 992-6831.

Mr. Brian H. Whitley states that: he is the Regulatory Affairs Director of Southern Nuclear Operating Company; he is authorized to execute this oath on behalf of Southern Nuclear Operating Company; and to the best of his knowledge and belief, the facts set forth in this letter are true.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Brian H. Whitley
